OFFER DESCRIPTION

The Auxiliary Researcher in the scientific area of nursing hired under tender will be responsible for regularly carrying out Research & Development activities and all other scientific and technical activities within the scope of CIDNUR's mission and included in no. 1 of Article 5 of the ECIC and no. 2 and 3 of the Article 3 of the Regulation of the Career, Tenders and Hiring of Researchers of the Nursing School of Lisbon, namely:

- a) To participate in the conception, development and execution of Research & Development projects and related scientific and technical activities.
- b) To supervise the work developed within the scope of the projects under their responsibility.
- c) To collaborate in developing training activities within the Research & Development methodology scope.
- d) To monitor the research work developed by fellows, research trainees and research assistants and participate in their training.
- e) To guide and participate in the institution's training programmes.
- f) To participate in teaching activities.
- g) To carry out activities related to knowledge transfer and valorisation.
